

## What is Straight Vitalogy®

The Straight Vitalogy® concentrates on the static of the human body. Since the spinal column is not only the axis of the body but also protection for the nervous system (spinal cord) proceeding in the furs canal, disturbances of the static can have an effect not only on the entire movement appliance but also on all systems and organ functions. Minimal faulty positions are an often-underestimated cause of many health disturbances in the area of the transition head to the spinal column (let pass the central nervous system).

## The philosophy

The basic idea of the Straight Vitalogy® is that all life functions must be coordinated at every time of the nervous system in order to get a best possible health.

The Straight Vitalogy® neither fights symptoms nor heals illnesses.

She stimulates the self-cure strengths so that the body can overcome health problems best possible. This is only possible, if the central nervous system (cerebrum, cerebellum, brain trunk and spinal cord), the vital commands over the spinal cord nerves to all cells in the body from those the human being exists, can lead unhindered.

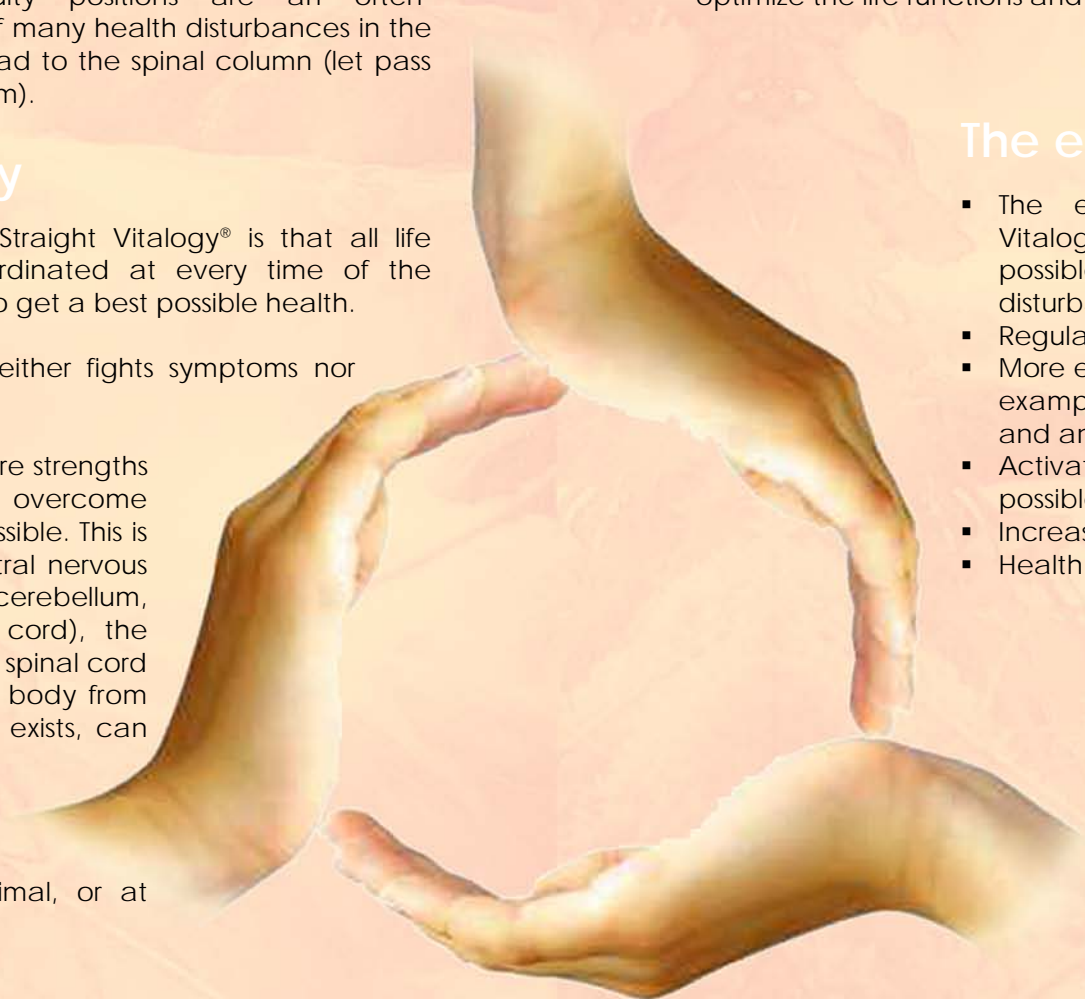

Hundred percent is optimal, or at least best possible.

## The art

The high art of the Straight Vitalogy® consists the recognizing of a possible disturbance in the area-relationship skull to the spinal column firstly. Secondly in the subsequent specific vitalogy application, that with the help of a high precise impulse, an own correction introduces. Through the turning off the primary cause, the body gets the possibility to optimize the life functions and to correct slips.

## The expedience

- The expedience of the Straight Vitalogy® is to take influence on the possible primary cause of disturbances in the human body.
- Regulation of the static best possible.
- More even burden of the joints like for example spinal column, hip, knees and ankle joints.
- Activation of all life functions of a best possible level.
- Increase of the well-being.
- Health provision and health care.
